

Yes, as a student I find Blast 106 perfect for the needs of a student. Good range of music - not just chart, specialist shows each weeknight and loads of student news. I've known what's happening around uni before I even get there thanks to Blast!

There is a different big issue every day and with so many students in Belfast listening to Blast 106 daily, it gets people talking. Blast 106 take a real interest in their local students and it's nice to have a radio station that cares more about it's listeners than anything else.
