

Additional comments

I made a mistake with the other form. Please see full answer as below. Please help us to fight the high prices to call Bangladesh.

Questions

Question 3.1: Do you agree that the modification to the Numbering Plan that we propose – which would prohibit direct or indirect revenue-sharing with callers and/or end-users by those who use 03 numbers – is appropriate and proportionate to address the conduct of concern that we have described in this document? If not, please explain why.

I do NOT agree because i want to call Bangladesh at a reasonable price and charging £1.25 per minute is not fair. It costs me a lot of money to call my family. I am paying £30 a month for my contract and it is supposed to be unlimited calls but however i now i cannot use the service to call 03 numbers as its been stopped. Please help me.

Question 4.1: Do you have any comments on the draft modifications to the Numbering Plan that we are proposing, as set out in Annex 7? Where you disagree with any of the proposed modifications, please explain why.

I do NOT agree because my mobile network is ripping me off. I use calling cards and 03 services to call home as its much cheaper. Why cant OFCOM help to bring down costs of the calling abroad. I dont understand why calling cards costs to Bangladesh is 10 pence and from a mobile its so much more.
