

**Question 1:Do you have any comments on the drafting of the Proposed Regulations?:**

I look forward for AM & SSB to be allowed for CB radio use in the UK. This will help users choose the mode that they wish to use according to their needs and style of operation. Greater harmonisation will also be useful for professional drivers and tourists travelling through out Europe, allowing they CB radio equipment to be used in more countries.

**Question 2:Do you have any comments on the Regulatory Impact Assessment?:**

None
