Support for PMSE equipment owners

I wish to add my name and full agreement to the BEIRG response and add:

Ofcom whilst favouring the mobile industry has caused the UK PMSE industry to pick up the bill on three previous occasions for the benefits granted the mobile industry. Given the benefits to the UK balance sheet provided by the PMSE Industry, Ofcom should fully fund all costs associated with this change out rather than trying to limit pay-outs by awarding this dubious spectrum for which PMSE users already have access
