

Consultation response form

Question	Your response
<p>Question 3.1: Do you agree with our proposal to remove the obligation for telecoms providers to provide the local dialling facility? Please provide reasons for your response.</p>	<p>Y Probably very rarely used. I don't use it.</p>
<p>Question 3.2: Do you agree with our proposal to retain the provisions in the Numbering Plan which (i) allocate location significance to area codes and (ii) allow phone users to request out-of-area use of geographic numbers? Please provide reasons for your response.</p>	<p>i) Y For local businesses, it implies the number is "tied" to a physical location, rather than to a mobile which could be a "burner". I have low confidence in businesses which only publish a mobile number. When receiving "unknown" calls (eg, not in my address/contacts) I'm more likely to accept calls from my local area or one where I know friends/relatives live.</p> <p>ii) N Feels like spoofing!</p>
<p>Question 4.1: Do you agree with our proposal to modify the Numbering Plan to prohibit direct and indirect revenue sharing with the calling party for calls to all geographic and non-geographic numbers? Please provide reasons for your response.</p>	<p>Y Although not aware of such schemes, I think it appropriate to prohibit such schemes.</p>
