

Your response

Question	Your response
<p>Question 1: Please provide feedback on the additions, amendments and clarifications we have made to the wording of the licence condition to implement our decisions on the scope of the licence condition in our October 2020 Statement, giving reasons for your response.</p>	
<p>Question 2: Please provide feedback on the additions and clarifications to our 'Guidance on EMF Compliance and Enforcement', giving reasons for your response.</p>	<p>This whole consultation appears to be based on the idea that PHE guidelines are statutory in law, when they are clearly termed 'guidelines' rather than legal requirements. Neither, in my understanding are ICNIRP guidelines statutory, rather again, merely guidelines. Levels of emf emissions are immaterial to the fact that these guidelines do nothing to protect the environment from being harmed, or those with metal implants. It is also my understanding that it is the Secretary of State who has the responsibility for our health and not PHE.</p>
<p>Question 3: Please provide feedback on the trial version of our EMF calculator, giving reasons for your response.</p>
