

## Your response

Question	Your response
<p><b>Question 1: Please provide feedback on the additions, amendments and clarifications we have made to the wording of the licence condition to implement our decisions on the scope of the licence condition in our October 2020 Statement, giving reasons for your response.</b></p>	<p>Whatever words are used in the licence conditions, they are irrelevant until and unless full consideration has been given to the inadequate protection implied within the ICNIRP guidelines and full and proper cognisance given to the clearly stated concerns of IARC, scientists et al regarding the additional effects of EMR on the environment etc. Until this is done and clearly evidenced to all concerned parties, including the public, the whole sorry scheme must be placed on 'hold'.</p>
<p><b>Question 2: Please provide feedback on the additions and clarifications to our 'Guidance on EMF Compliance and Enforcement', giving reasons for your response.</b></p>	<p>Whatever additions and clarifications are made, these have no validity regarding the risks to which the public and the environment are exposed until and unless the whole issue of the inadequacy and inappropriateness of the ICNIRP guidelines has been resolved</p>
<p><b>Question 3: Please provide feedback on the trial version of our EMF calculator, giving reasons for your response.</b></p>	<p>The calculator may become relevant when appropriate guidelines for prevention of harmful exposure are unequivocally established, rather than rely on the inadequate coverage provided by the ICNIRP guidance</p>
