Question	Your response
<p>Question 1: What are stakeholder views on how Ofcom should assess and measure BBC performance?</p>	<p>Accessibility – can audiences continue to view and listen on tv and radio, without being forced to move to online before they want. Funds spent in and around UK. Funds targeted at UK audiences.</p>
<p>Question 2: Do you agree with the proposals for Public Purpose 1? If not, please explain why.</p>	<p>Yes – but – BBC news should continue to provide a 24-hour tv channel. By way of example – how else would many people have been able to access trustworthy coverage of Downing St Covid news conferences?</p>
<p>Question 3: Do you agree with the proposals for Public Purpose 2? If not, please explain why.</p>	<p>Happy to agree to this</p>
<p>Question 4: Do you agree with the proposals for Public Purpose 3? If not, please explain why.</p>	<p>I feel the quote for original UK production should be increased – perhaps to 80%. Spending license fee money offshore is not to the best benefit of the UK – ie removing staff in the UK and hiring replacements overseas should be banned.</p>
<p>Question 5: Do you agree with our preliminary view on the BBC’s request to change Operating Licence conditions 2.21 and 2.32 for BBC Four, including our proposal to remove BBC Four’s peak original productions quota and set the ‘all hours’ quota at 65% instead of 60% as requested by the BBC? If not, please explain why.</p>	<p>I can agree to this.</p>
<p>Question 6: Do you agree with the proposals for Public Purpose 4? If not, please explain why.</p>	<p>Yes</p>
<p>Question 7: Taken together, do you agree with the proposals for a new Operating Licence? If not, please explain why.</p>	<p>I feel the BBC should remain compelled to provide core services on tv and radio broadcasts – with additional material on the web. Moving away too quickly – ie closing that news channel that I’ve read about- would cut people off from</p>

news about the country in which they live, when they already pay for it.
