<p><b>Question 1:</b> Do you agree with our proposal to make this spectrum available for fixed links? Are there other potential users of these frequencies which we have not identified?</p>	<p>Confidential? – N</p> <p>Yes. Other users could include people having a temporary need to maintain service as the networks move to fibre only.</p>

If not, please explain why this is the case and provide evidence to support your views.
