Question	Your response
<p>Question 1: Do you agree with Ofcom's proposal to update the authorisation approach and technical criteria for SRD data networks in the 870 to 874.4 MHz band? If not, please provide your reasoning.</p>	<p>1) Confiden_al? – N</p> <p>DUNEL EUROPA confirmed and accepted Ofcom's proposals to the SRD update the Authorization regarding the and technical matters for SRD data networks in the 870 to 874.4 MHz Spectrum range.</p> <p>It's a very important and positive step for the industry and consumers to UK Ofcom's allow the band for SRD applications.</p>
<p>Question 2: Do you agree with Ofcom's proposals to authorise higher power use of 57 to 71 GHz by wideband data transmission systems via a light licensing regime? If not, please provide your reasoning.</p>	<p>No comments</p>
<p>Question 3: Do you agree that the Proposed Regulations would correctly implement the policy decision made earlier this year on extending Wi-Fi to the 6 GHz band, the SRD Decision and, if agreed, the changes to SRD Data Networks in the 870 to 874.4 MHz band?</p>	<p>DUNEL EUROPA confirm and accepted that the Proposed Regulations would help and improve the implementation made by Ofcom's and the correct changes to SRD Data Networks in the 870 to 874.4 MHz band.</p> <p>We appreciate Ofcom's implement the changes as their _me permit and would be great for the entire industry and consumers.</p>
