	<p>Confidential? – N</p> <p>I am replying on the basis of a unique situation in Leicester as evidenced by prolonged Covid rate and lockdown. Leicester Community Radio is making a real impact on the community, however it currently only has a Covid RSL which is not permanent. Small scale DAB applications are too far away in the future for the Leicester area. A one off community licence round for Leicester is reasonable considering the excellent work Leicester Community Radio is doing and it's a shining example of community radio.</p>
