Do you have any comments on our proposals?	<p>Whilst we agree there are many valid plans within this document of which we are very supportive we are disappointed to note the absence of any mentions of number portability and number management.</p> <p>In the previous Plan of Work these two points featured highly and much work has been carried out by industry to research and try to develop better processes and methods for consideration, but it would appear this work has been dropped.</p> <p>Magrathea strongly believe that number porting and number management are critical to the success of the IP Migration project as well as achieving progress in other projects such as CLI validation. We request Ofcom reconsider and carry forward these important issues that have yet to reach a conclusion.</p>
