

Firstly, I don't listen very much to Talksport. However, in Crawley, where AM reception from early dusk to dawn from Brookmans Park is poor, I do wonder about the rationale for closing Brighton and denying acceptable coverage along much of the South coast.

Also Brookmans Park and Fareham create a large mush area as both are on 1089. If Fareham moved that would help.

Lastly, I do wonder about the sense of closing Lisnagarvey, though ideally, if kept that too could benefit from a change of frequency

Anyway, as I said I rarely listen: just a few idle thoughts. And, after all, the BBC closed 1341 kHz years ago.
