

Your response

Question	Your response
<p>Do you have any comments on our proposals?</p>	<p>The plan of work helpfully sets out Ofcom’s postal priorities and plans. We use it to support our resourcing decisions, e.g. when our resources need to be available, and as an indicator of whether Ofcom’s fees for the following year is likely to decrease or increase depending on the level of activity, which is helpful for our budgeting.</p> <p>In this year’s draft plan of work, we have identified discrepancies between the work outlined versus that set out in Ofcom’s regulatory review consultation document (published 9 Dec 2021) – see Annex 1</p> <p>We would welcome clarity on all Ofcom’s key postal activities in the final workplan, including whether there are any other pieces of work Ofcom are planning for that have not been listed in either of the two documents.</p> <p>As we set out in our half year results we look forwards to working with all our stakeholders to ensure we keep the Universal Service relevant and sustainable given changing customer needs and market dynamics. We ask that this is factored into your future plan of work.</p>
