Do you have any comments on our proposals?	<p>I would like to see a end to ADSL ADSL2 FTTC/VDSL2. End of the copper Network. That's why I fully support the FTTP rollout because full fibre broadband is so much more future proof. I would hate to think you want keep the old copper network going. The uk government should of thought of this in 2009 when they started with FTTC. They should've known FTTC isn't future proof.</p> <p>FTTC/VDSL2 is Limited</p>
