

AeroMobile Communications Limited is a UK-based mobile service provider for the aviation industry. We provide world class, proven, technology and services that enable airline passengers to use their own mobile phones for voice, texting and mobile data whilst inflight. Since 2008, over 40 million passengers have connected to our inflight network. To that end, we welcome Ofcom's proposals to implement the requirements of the European Commission Implementation Decision 2016/2317/EU, of 16 December 2016 by making the Wireless Telegraphy (Mobile Communication Services on Aircraft)(Exemption) Regulations 2017, which would revoke and replace the Wireless Telegraphy (Mobile Communication Services on Aircraft)(Exemption) Regulations 2014. Separately we support Ofcom's proposal to amend the Notice of Variation authorising the use of mobile apparatus, the deployment and use of both the aircraft base station and NC
