

Your response

Question 1: Do you have any comments on our proposals?

I am a BBC licence payer in England and am very unhappy that BBC viewers in Scotland should have a Scotland only channel which I assume I will be paying for. I understand that they will be able to receive Scotland only news, but I cannot receive any England only news. I can only watch my own regional news programme (BBC Look East), but cannot watch any news programmes about England only. I would be very interested to watch a news programme about England only and know what is happening all around my country. These would be news items that do not merit coverage in the national news programmes.

When the Scotland channel was announced I felt that England was the only UK nation not have any sort of national channel, but those living in Northern Ireland, Scotland and Wales merit such favouritism. I consider this to be fundamentally unfair to those living in England. The only positive thing to come out of this is that at least I will not be funding a BBC2 Scotland channel.
