

Question 1: Do you have any comments on our proposals?

I frequently search for TV programmes that I want to record (for watching later) using my FreeSat TV guide on a Humax PVR. On average I record about 10 TV programmes a week. Probably 90% of the programmes I enjoy watching are from just three channels: BBC1, BBC2 and BBC4. A few are from Channel 4 and Film 4. The rest are pointless. Judging by the poor programme quality of BBC Radio Scotland, compared with BBC Radio 4, I do not think I will be watching many of the proposed BBC Scotland programmes. Therefore, if BBC 4 was to be moved to a different page of the FreeSat guide it would be a considerable nuisance to me. One way round this would be to ask Humux to change their software so viewers can just include selected channels on their FreeSat guide.
