

What a complete and utter waste of the licence fee.

'News from a Scottish perspective' !! Scots have the same perspective to the rest of the UK. This is being driven by a political party that is trying to drive a wedge between Scotland the the rest of the UK.

To remove BBC4 from it's slot is an insult to those of us who enjoy documentaries and the content of this wonderful channel. To replace it with content of a parochial nature is even more of an insult. To top it off 50% will be repeats.

There is already a gaelic channel, a channel for the 50k gaelic speakers in Scotland! Another waste of resources.

I think it's safe for you to assume that I will not watch this channel because doing so will simply appease the Nationalist minority agenda.
