

I am writing in response to Asian fever fm, my name is shamanjit I am of Sikh origin, This radio station should be catering for world wide religions, i don't think it should solely cater for one religion as it's south Asian community I am aware that during Islamic festivals their is a radio that goes by Ramadan fm, which caters especially for Islamic religious times I don't think it's fair to listeners from other cultural backgrounds.

Many thanks

Shamanjit kaur
