Question	Your response
Question 1: Should Bauer radio (West Midlands) Limited be permitted to make its proposed change to the Format of Absolute Radio (West Midlands)?	Confidential? – N No. this will remove FM choice. The proposed change just copies what Capital and Free already provide. What Absolute provide now is unique to FM. Surely just because people have not yet got modern cars with DAB some choice should still be provided.
Question 2: Should Birmingham Broadcasting Limited be permitted to make its proposed change to the Format of Free Radio 80s (Birmingham)?	Confidential? – N Yes - At least this is choice to analogue radio users (see below)
Question 3: Should Orion Media Limited be permitted to make its proposed change to the Format of Free Radio 80s (Wolverhampton, Shrewsbury & Telford)?	Confidential? – N No - Both frequencies can clearly be heard outside there target areas. Give more choice not less
