<p>Do you agree for the purposes of where locally-made programming may come from, Ofcom should approve the 'Anglia' area in relation to the 10 local licences listed in Section 2 of this document? If you do not agree, please give reasons.</p>	<p>Confidential? – N</p> <p>To be honest the whole concept is ridiculous. Nobody I know thinks that Heart is a truly local radio station anymore anyway, and anyway the local content rules for commercial licences are now so lax that they are not worth having.</p> <p>There is nothing very "local" about Heart's content including the adverts.</p> <p>So I say let Heart do what it wants, it isn't going to affect us as a TRULY local radio station!</p> <p>Plus it'll make your lives easier 😊</p>
