

CONSULTATION RESPONSE

NAME	Response to Proposal by Ofcom to grant powers under the Electronic Communication Code to Swish Fibre Limited
Alice Courvoisier	<p>Dear Ofcom,</p> <p>Please find below my answer to the consultation, no part of it is confidential.</p> <p>I would advise against giving such powers as the Code confers to any private company for the following reasons:</p> <p>First, the effects of exposure to EMF radiation from wifi and mobile devices on health and the environment are ill understood. There are growing health concerns surrounding the deployment of 5G, with some cities imposing bans or moratoria. It is irresponsible for a company to be allowed to deploy an infrastructure whose safety has not been proven.</p> <p>Second, it is ethically questionable to let a private company impose infrastructures, radiations, and ultimately intrusive technologies without the targeted persons or communities able to have a say in the process.</p> <p>I answered as myself.</p>
