

CONSULTATION RESPONSE

| | |
|--|--|
| NAME | Response to Proposal by Ofcom to grant powers under the Electronic Communication Code to Railsite Telecom Limited |
| Robin Gisby (London North Eastern Railway) | LNER fully supports Railsite Telecom Limited's application for code powers. As part of LNER's commitment to providing its passengers with freedom of choice as to how they access telecoms services on the train, enhancement of the service provided by existing mobile network operators adjacent to the railway is to be welcomed and will have the additional benefit of increasing connectivity in rural areas. |
