

## Your response

Question	Your response
<b>Question 1: Do you agree that Ofcom should cease to apply the policy to not grant the same applicant more than two SRSLs in a single year, or one SRSL if the service is within the M25?</b>	Yes.
<b>Question 2: Do you agree that Ofcom should cease to apply the policy to not grant SRSLs where the service proposed to be provided does not appear to be different from what is available on the commercial and community services in the area of broadcast?</b>	Yes. Radio Cracker has been broadcasting in Ballymena for over 25 years and has raised over £1.6M in that time for many needy people around the world. To many it is considered to be part of the Christmas season in Ballymena. If a community radio station was to be awarded in Ballymena, we would worry that we may not be considered different enough to warrant a licence award.
