Question 1: Respondents are invited to comment on whether they agree with Ofcom's preliminary view and to frame their views and responses with reference to, or in the context of, the statutory criteria in section 106(1A) of the Broadcast Act 1990 (as amended).

No I do not agree with Ofcom's preliminary view. Please please please do not grant this. I listen to XS Manchester all day nearly every day. It is by far the best radio station in Manchester and combines a great mix of Manchester music, indie music and new music and all the presenters clearly love what they do and are passionate about the music they play. There is absolutely no desire amongst any of my friends and family who currently listen to XS to have it changed to "An urban contemporary music service featuring music of an Afro- Caribbean origin" and none of us will be listening if it does. There is no other station that plays the same mix of music as XS Manchester does and it should not be changed under any circumstances. s
