	<p>Confidential? – N</p> <p>I request you deny the proposed changes by Bauer Radio for the South of England area for the following reasons:</p> <p>I've been a Spirit FM listener for nearly 20 years. Not only is it fun to listen too but it's important to me that it's local presenters, news and stories. There's also a good selection of music. I enjoy the competitions, especially War of the Works and Stuart's Friday Night Quiz is proving to be great fun too.</p> <p>The presenters are so familiar to the listeners, they feel like friends, especially Crouchy. He's been there from the beginning, and I love chatting with him when he's covering outdoor events.</p> <p>The stations involvement in supporting and promoting local events and charities cannot be overstated. They really are an important part of the community they serve.</p> <p>I find it ironic that having had their best listening figures ever, they're now going to disappear in their current format. Sadder still people will lose their jobs after many years of loyal and happy service.</p> <p>Suffice to say if this goes ahead, I will cease to be a Spirit FM listener as it will be just another station churning out the same generic stuff.</p>
