

I am very saddened to hear that the current service of Spire FM is under threat of being changed. I have listened to this station for many years and very much enjoy the fact that it is local. Not just in its physical location, but also in that the presenters are local with knowledge of Salisbury, the news is local, with phone ins including the people of Salisbury. I don't much care for adverts normally, but even these are local businesses. I very much enjoy the daily workplace quiz which is always local businesses. The support for our local hospital from Spire FM is outstanding and so so important to the success of the hospital's charity, the Stars Appeal which has raised millions of pounds for the Trust, no doubt helped immensely by Spire FM who reach thousands of people. I really appreciate their involvement with local events, such as the Christmas lights switch on, Downton Cuckoo Fair, festivals etc.

It is so so important that there remains this vital LOCAL radio station who's main purpose is to be there for the local community, run by local people who know and care about our beautiful city, who thousands of people enjoy listening to every day. Please don't take this away from us. We don't need a regional service, there's plenty of these already for people who want indifference, we don't want this, we want local.

This is very important, please take notice and do the right thing by the people of Salisbury.
