	<p>Confidential? – Y / N</p> <p>Do you agree that for the purposes of where locally-made programming may come from, Ofcom should approve the ‘South of England (Bauer)’ area in relation to the 12 local licences listed in Section 2 of this document? If you do not agree, please give reasons.</p> <p>I do not agree with “South of England” The reason I do not agree is because we deserve a proper local radio station that is local and not regional. Spirit FM is part of our community, championing local causes, raising local issues. and much much more. We don’t need another generic radio station that tells me how congested the A303 is or that there is another incident on the M25. These type of traffic reports are of no use to me. I don’t need to know that a major supermarket has offers on! I want to know what’s going on in my town or my local city, when the next local event is happening. I want local quizzes and entertainment news</p> <p>Proper Local radio keeps the community informed and up to date on the key issues that will affect me personally. Because the DJ’s are local people you feel more connected to them.</p>

Please, let's not lose another local identity
