<p><b>Question 1: Respondents are invited to comment on whether they agree with Ofcom's preliminary view and to frame their views and responses with reference to, or in the context of, the statutory criteria in section 106(1A) of the Broadcasting Act 1990 (as amended).</b></p>	<p>Overall I agree with the prospect of changing the format, but the new format is similar to that covered by AL000167BA which Bauer also own, and this would narrow the range of programming available per 106(1A)B. AL000167BA no longer carries Bristol-focussed specialist programming, and it is unlikely that the new service will carry any either, only daytime programming. A small amount of specialist local programming should be required on this service or on AL000167BA as a requirement of the format change to enhance the choice of content available to the target demographic, such as featuring local DJs.</p>
