	<p>I don't see any reason why Bauer shouldn't be allowed to change the format of the station on 105.8fm, currently Absolute. I have listened to it while in and around London, and it seems to only has local advertisers on it rather than national. At the end of the day radio is a business and if advertisers want to advertise on the new station (Greatest Hits Radio) then the change should be allowed.</p> <p>I think it would be a refreshing change for FM listeners in London and surrounding areas. If people still want to listen to the music Absolute plays there are ways to tune in, on Medium Wave, DAB, Smart Speakers, Mobile App and web stream.</p>
