| Question 1: Should Ofcom exercise its discretion to consent to the application to vary the Winchester small-scale multiplex licensed area, with regard to the statutory and policy considerations set out in this document? | Confidential? – N With Outreach Radio being based in Chandler’s Ford, and broadcasting on Winchester DAB, the improved coverage in the Chandler’s Ford and Eastleigh areas would be greatly welcomed. In regards to serving the local communities, one of the main difficulties we faced with the previous lack of coverage in Chandler’s Ford was that portions of the town come under the Parliamentary Constituency for Winchester, and this increase in coverage area will allow us to better reflect and inform the local community in this area, particularly in the run-up to the General Election. |
| Question 2: With reference to our impact assessment, do you agree with our assessment of the potential impacts of approving this application? | Confidential? – N We agree with Ofcom’s views on on the change to coverage areas, but do not feel that this would have a negative impact on our services. |
