

Background

1. Eutelsat Group was formed in September 2023 through the combination of Eutelsat, a global GEO satellite operator, and LEO constellation operator OneWeb – creating one of the world’s most innovative and experienced commercial satellite operators. The company is headquartered in Paris, with the centre of its Low Earth Orbit (LEO) operations based in London.
2. With a fleet of 37 geostationary satellites and a LEO constellation of more than 600 satellites providing capacity for broadcasters, media service providers, telecom operators, ISPs and governmental agencies, Eutelsat Group is the world's first satellite operator with an integrated GEO-LEO infrastructure. Our satellites are used for video broadcasting, satellite newsgathering, broadband services, data connectivity, connecting aviation and maritime, and enabling mission-critical government and NGO communications.

Your response

Question	Your response
Question 1: Do you anticipate this satellite network will pose coexistence challenges to existing service	Confidential? – Y [Redacted] [Redacted] [Redacted] [Redacted]
