Am I living in a fantasy world?

Can these proposals really be serious?

Do Ofcom have a crèche? Is this where they held their informal talks before announcing this big consultation? Is this where they did their blue sky thinking?

Is this a plot by the highly paid RM managers to run the business down so they can make a management buyout at a knock down price and then asset strip?

.

Question 1:Do you agree that Ofcom should grant approval to Royal Mail for the Delivery to Neighbour service? If not please explain your answer. :

No, No, a thousand times no!

This is a crazy idea.

I want MY post delivered directly to ME. Get that?

What can you do with your opt out sticker? Well, oompah oompah stick it up your jumper!!!

I am not making my house look a mess with a Royal Mail sticker.

Question 2:Are there other consequences following the roll out of the service across the UK that we have not included in our assessment? If so, please explain.:

Yes.

These are so obvious that Ofcom should not need them spelling out. Resign if you haven't the intelligence to work out that this will be complete disaster

Question 3:Do you have any comments on the scope and wording of the proposed Notification and approval:

No.

Because it shouldn't be needed if Ofcom have any common sense.
