

Additional comments:

I have just today (29/08/12) recieved a notice from RM of their intensions, acording to the page i was directed to i have 2 weeks to submit my comments, however at the top of this web page the cut off date states the 24th August either way this is not enough notice this process is therefore flawed.

Question 1:Do you agree that Ofcom should grant approval to Royal Mail for the Delivery to Neighbour service? If not please explain your answer. :

NO Royal mail increases it prices by using the justification that they provide a universal mail service in the UK delivering to EVERY household, if they proceed with this are they going to slash the price of a stamp?

Question 2:Are there other consequences following the roll out of the service across the UK that we have not included in our assessment? If so, please explain.:

It is illegal to delay the mail in the postal system, delivering it to some scally up the road for them to steam open constitutes this.

Question 3:Do you have any comments on the scope and wording of the proposed Notification and approval:

The opt out is the wrong way around, people wanting this service should be advised to opt-in, why should i be forced to display an opt-out sticker on my property this will lead to arguments with the very scumbags i don't want handling my mail.
