

Additional comments:

I notice that I have missed the date on this form, but only received the information from the Royal Mail today and was not aware of it before.

Question 1:Do you agree that Ofcom should grant approval to Royal Mail for the Delivery to Neighbour service? If not please explain your answer. :

No. For the obvious reason that people who have the type of neighbours that they don't want their post going to are also very unlikely to want to display that fact publicly in the form of a sticker in sight of those same neighbours. This could cause serious problems and confrontations. I can't believe that this has not been thought of already. This can ONLY work if it is opt-in not opt out.

Question 2:Are there other consequences following the roll out of the service across the UK that we have not included in our assessment? If so, please explain.:**Question 3:Do you have any comments on the scope and wording of the proposed Notification and approval:**
