

Question 1:Do you agree that Ofcom should grant approval to Royal Mail for the Delivery to Neighbour service? If not please explain your answer. :

No, not in its current form. It should be an opt in scheme. i.e. you display a sticker if you want your packages left with a neighbour and you are happy to receive them. There also has to be a way to specify which neighbours because I don't believe anyone would be happy to leave parcels with all their neighbours.

Question 2:Are there other consequences following the roll out of the service across the UK that we have not included in our assessment? If so, please explain.:

Having to display an unsightly sticker on your lovely tidy house.

Not way of specifying neighbours that you would allow to receive your parcels.

Question 3:Do you have any comments on the scope and wording of the proposed Notification and approval:

MUST be opt in. Only those displaying the sticker should be asked if they want to take someone else's package.
