

**Question 1:Do you agree that Ofcom should grant approval to Royal Mail for the Delivery to Neighbour service? If not please explain your answer. :**

No - this is a crazy idea to try and save money and has nothing to do with customer service. I would rather collect from a depot rather than chase a neighbour i do not know or who may never be in.

who is responsible for items that you are unable to collect from a neighbour ?

**Question 2:Are there other consequences following the roll out of the service across the UK that we have not included in our assessment? If so, please explain.:**

**Question 3:Do you have any comments on the scope and wording of the proposed Notification and approval:**

i think this has been slipped in . there has been little publicity and the first i was aware of it was when royal mail wrote to me basically saying subject to this consultation it was in and i allready have my sticker saying i do not want post leaving with a neighbour. I object to having to display this and royal mail cant even guarantee their postmen will comply !! and as its easier to dump next door i am sure most will miss the sticker!!
