

**Additional comments:**

royal mail have delivered a letter telling me i need to opt out of this and display a sticker on a front door that cost &pound;2500, i dont think so.

**Question 1:Do you agree that Ofcom should grant approval to Royal Mail for the Delivery to Neighbour service? If not please explain your answer. :**

no, there are people at this address who work nightshift, i do not want them disturbed during the day when asleep, accepting parcels for neighbours

**Question 2:Are there other consequences following the roll out of the service across the UK that we have not included in our assessment? If so, please explain.:**

what about security, whats the point of sending a parcel via a secure service for the parcel to be given to an unknown unchecked insecure neighbour?

**Question 3:Do you have any comments on the scope and wording of the proposed Notification and approval:**

this should not be approved if people want to opt into this fine, but i dont see why i have to put a royal mail sticker on my door.
