

### **Additional comments:**

BECAUSE THE PARCEL IS ADDRESSED TO ME AND TO ME ONLY. NOT TO ANY OF MY NEIGHBOURS. The post office needs to STOP TRYING TO WRIGGLE OUT OF POSTING THE PARCEL AT MY HOUSE FOR IT IS my ADDRESS THAT I PAY FOR MY PARCEL TO BE DELIVERED TO AND NOT ANYONE ELSE'S.

The entire operation SHOULD BE SHUT DOWN AND THE DELIVERY SECTOR SHOULD ALL BE PRIVATISED SO THAT COMPETITORS CAN COMPETE AND THE PRICE OF POSTAGE IS REDUCED. The whole point of this is so that the post office can save more money to line their own pockets. Well what a shame they can't pass it on to the public. The Post office are charging way too much and should be sued for imposing such a stealth tax on postage. I have never written to Ofcom before about anything and I hope this makes a difference. Also I have never had to put a sticker on my post box for anything and I hope I never have to.

### **Question 1:Do you agree that Ofcom should grant approval to Royal Mail for the Delivery to Neighbour service? If not please explain your answer. :**

No please don't grant them approval of such an idea..

I expect a service that in the least can post the parcel at my house and if the parcel is too big then take it back to the delivery office. I don't know our neighbours and we have busy schedules so the last thing we need is to be looking after each others parcels and to be looking for each other.

### **Question 2:Are there other consequences following the roll out of the service across the UK that we have not included in our assessment? If so, please explain.:**

Trust issues with neighbours and having to wait for your neighbour to be available to pass you your parcel when you are both free. A parcel can be delayed significantly in this situation.

Also it is much easier to travel to te collection office with id. Also the data protection and the security of the parcel are a protected factor that will be at risk.

### **Question 3:Do you have any comments on the scope and wording of the proposed Notification and approval:**

I don't think it I'd being taken seriously enough and all the implications need to be considered.

Ultimately this is going to leave a lot of people disappointed in OFCOM and the royal mail. I hope that Ofcom is able to stop this absurd idea and fines the royal mail for coming up with such a propostrous suggestion in the first place.
