

### **Additional comments:**

You have not considered a direct deliver to a local postoffice or central depo.

### **Question 1:Do you agree that Ofcom should grant approval to Royal Mail for the Delivery to Neighbour service? If not please explain your answer. :**

No, Postage cost is from A to B, not the house next door to B. I will have paid for a service for which you will grant licence to royal mail to fail to complete but still charge a full premium.

### **Question 2:Are there other consequences following the roll out of the service across the UK that we have not included in our assessment? If so, please explain.:**

Who will be liable for postal damage after delivery to a neighbour?

What happens if your request not to deliver to a neighbour is ignored?

I should be an opt in scheme not an opt out, if you want to have your parcels delivered to a neighbour then you should display ' a free sticker on your front door'

### **Question 3:Do you have any comments on the scope and wording of the proposed Notification and approval:**

A simpler to the point leaflet would be much more beneficial than a 32 page document cramed with legalise, i would suspect this is done to encourage people not to read so as to ease this proposal in to action.
