This should be an opt in not opt out and will result in discrimination.

Question 1:Do you agree that Ofcom should grant approval to Royal Mail for the Delivery to Neighbour service? If not please explain your answer. :

Yes

Question 2:Are there other consequences following the roll out of the service across the UK that we have not included in our assessment? If so, please explain.:

Yes - Those people who display a sticker may be viewed with less respect by their neighbours and considered to be less friendly.

There is no option to accept mail for someone else but not require your mail to be delivered to neighbour, this is a big omission in my opinion.

I am totally willing to accept mail for someone, but it is much easier for me to collect undelivered mail from my local delivery office.

As i am not at home during the day there will be a disproportionate amount of my mail being delivered to a neighbour than me receiving their mail. My neighbours will soon get fed up with it.

Question 3:Do you have any comments on the scope and wording of the proposed Notification and approval:

No
