Question 1:Do you agree that Ofcom should grant approval to Royal Mail for the Delivery to Neighbour service? If not please explain your answer. :

No, another cost cutting scheme by RM to try and save a failing service. I don't want my neighbours getting their hands on my parcels and vice versa.

My apartment building has a very discreet door with no windows to stick the opt out sticker on, where do I put this sticker the only place is the door. So you have this sticker on the door that is going to be peeled off by the drunks on a week end and according to RM it's my duty to display this opt out sticker. Who are they to dictate that?

I don't want my door buzzer being pressed by RM in the morning when I work nights just because they are trying to save a few pounds and can't be bothered to return the parcels to the local depot.

Question 2:Are there other consequences following the roll out of the service across the UK that we have not included in our assessment? If so, please explain.:

Question 3:Do you have any comments on the scope and wording of the proposed Notification and approval:

no
