

Additional comments:

I do not wish to have my mail passed on to my neighbours even though I do not have any problems with them. I feel that this is an invasion of my privacy. There is a Human Rights issue here with regard Article 8 and right to privacy. I am very proud of my house and home and I do not wish to have a sticker placed on my front door. I own a detached house in its own driveway with a stone moulding surrounding my door. There is no glass. My house is listed by Historic Scotland. I am very opposed to having a sticker on my front door. This should not be the only option for people wishing to opt out and needs to be reconsidered. Why cant the local depot hold a list of people who do not wish to be part of this scheme and issue on their deliveries to the post people.

Question 1:Do you agree that Ofcom should grant approval to Royal Mail for the Delivery to Neighbour service? If not please explain your answer. :

No its not for everyone. It may work for people in cities and towns but not for rural areas. Not everyone has a good relationship with their neighbours or do not wish to have that dependency on neighbours or invasion in privacy.

Question 2:Are there other consequences following the roll out of the service across the UK that we have not included in our assessment? If so, please explain.:

Rural areas.

Question 3:Do you have any comments on the scope and wording of the proposed Notification and approval:

No.
