Question 1:Do you agree that Ofcom should grant approval to Royal Mail for the Delivery to Neighbour service? If not please explain your answer. :

Definitely NOT. At present is I am not in to receive mail my postman very kindly leaves in a safe place. I work shift patterns and 12 hour shifts so being in at the time can be difficult. I do not want to take responsibility for other peoples mail and more than i want to feel beholdng to neighbours i hardly know. Now the option for me is to opt out which means my own mail will no longer be left in the safe place. So therefore i am being penalized for not taking other peoples mail in. Is this just a ploy of RM to cut back on staff and close even more sorting offices? We already pay for a service but RM are expecting us to the their job.

Question 2:Are there other consequences following the roll out of the service across the UK that we have not included in our assessment? If so, please explain.:

What if there is neighbour dispute, how will the postman know that?

Question 3:Do you have any comments on the scope and wording of the proposed Notification and approval:
