

Additional comments:

Please note that any mail that is given to myself for neighbours will be destroyed. I am not a postal service. Also, how much are you going to pay neighbours to deliver other's mail?

Question 1:Do you agree that Ofcom should grant approval to Royal Mail for the Delivery to Neighbour service? If not please explain your answer. :

I feel that my own mail should be delivered to myself and not others to pass on. How do I know if my neighbours will pass on all my mail to myself?

Question 2:Are there other consequences following the roll out of the service across the UK that we have not included in our assessment? If so, please explain.:

You have not understood that not all neighbours are trustworthy. They may be criminals that even their next door neighbour do not know about, and use details within mail of others to commit various crimes.

Question 3:Do you have any comments on the scope and wording of the proposed Notification and approval:

Yes. It has not been said that Ofcom must be under pressure to allow this through whatever. They have now said that 'due to a technical problem' some responses were not received and had to be re-submitted. This is obviously to reduce the number of negative responses that had been received to this proposal.
