Question 1:Do you agree that Ofcom should grant approval to Royal Mail for the Delivery to Neighbour service? If not please explain your answer. :

I wish to register my opinion that Ofcom should seriously review this proposal and NOT grant approval for this service.

This is because I do not want my neighbours receiving my personal items of post. I do not even know who they are. I also would not want to take in their post and have them knocking on my front door for it!!

Question 2:Are there other consequences following the roll out of the service across the UK that we have not included in our assessment? If so, please explain.:

You may wish to thoroughly think this proposed service through..... Ask people to opt in if they want to take part in such a silly scheme!

Question 3:Do you have any comments on the scope and wording of the proposed Notification and approval:

No
