

Question 1:Do you agree that Ofcom should grant approval to Royal Mail for the Delivery to Neighbour service? If not please explain your answer. :

Yes

Question 2:Are there other consequences following the roll out of the service across the UK that we have not included in our assessment? If so, please explain.:

Yes, what if there is a communal building and someone in it does not want mail delivered to neighbours, but the others do? - The sticker system is flaud and a central database would be better or sticker variations which can be written on to specify who they apply to or explain other issues.

Question 3:Do you have any comments on the scope and wording of the proposed Notification and approval:

It should be clearer which type of packages from bith royal mail and parcel force (which seem to be named differently) this applies to without having to read though reems of irrelevant small print. The important points from your pdf should have been separated from the legal explanation and survey results etc.
