Dear Ms Vandersteene,

Draft Statement of Charging Principles – Postal Services

Consumer Focus notes Ofcom's consultation on the Draft Statement of Charging Principles for Postal Services which seeks to align the principles with the new general authorisation regime in the Postal Services Act 2011.

Consumer Focus agrees with the proposed changes to the current Statement of Charging Principles. We look forward to the future consultation on this area in 2012/2013 as signalled in the consultation document.

Yours faithfully,

Robert Hammond
Director of Postal Policy and Regulation
