Additional comments:

Question 1: Do you think that allowing Now Digital to extend the coverage area of its Exeter & Torbay local radio multiplex licence to include North Devon would unacceptably narrow the range of DAB programme services available in the Exeter and Torbay area? Please explain the reasons for your view.:

We can not get dab in ilfracombe for local stations

It's all London wales. WE ARE ENGLISH WE LIVE IN BARNSTAPLE. I don't care about

Exeter and Torbay

I care about Barnstaple, and we don't have a voice,

Question 2: Do you think that allowing Now Digital to extend the coverage area of its Exeter & Torbay local radio multiplex licence to include North Devon would be calculated to maintain or promote the development of digital sound broadcasting in the UK otherwise than by satellite? Please explain the reasons for your view.:

Exeter and Torbay are miles away

Why can't we have our own station

They are not local, how can you give truly local news and events

When you do not know the area, this is madness.

Question 3: Do you think that Now Digital's proposals for providing coverage of North Devon are satisfactory? Please explain the reasons for your view.:

No

They are not local.

Question 4: Do you consider that Now Digital has the ability to maintain its local radio multiplex service if its request is granted? Please explain the reasons for your view.:

No

We have problem getting digital now in Ilfracombe

We have news from Wales, we live in England. We have a good FM signal.

Question 5: (For programme service providers on the Exeter & Torbay local radio multiplex only) Do you consider that there are sufficient safeguards in place to protect your rights and interests in the event that Now Digital is permitted to extend coverage to include North Devon?:

They are not local

We are the second biggest county after Yorkshire

We have a right to a truly local station.

They are not interested in local interests

Question 6: Do you consider that there are any other grounds on which Ofcom should approve, or not approve, the request from Now Digital? Please explain the reasons for your view.:

We need a local radio station FM in North Devon

We do not need a digital radio station tell us about traffic

Problems in London or Wales or Exeter.

A local radio station for local people, this is a rural area

And rely on local news.

For the past 2 years we have had bad weather in the winter,

We need to no if the roads are blocked with snow or the local
Schools are open,
As we have no real local station, last year mullicott hill
In ilfracombe was closed because of snow and we all got stuck
The year before when we had a local station we where informed
That the hill was impassible. I do not want to be stuck and have the police to dig me and my
car out again.
